WORK EXPERIENCE

Software Developer
The Digital Corps, Muncie, IN
AUGUST 2021 - MAY 2024

Collaborated with **6 different interdisciplinary teams** to create web applications and other digital products for clients or for internal usage.

Contributed to the development of **over 20 web applications** using **React, JavaScript, TypeScript, SASS, and HTML.**

Specialized in **frontend styling** for 1.5 years.

Appointed as 1 of 3 undergraduate **leaders** of the organization tasked with promoting and practicing interdisciplinary team initiatives.

Coordinated with all 10 staff faculty, including the **Director**, to discuss areas of improvement and create action plans.

Presented to new hires, the entire organization of **over 60 people**, and special clients.

Junior Project Manager
The Digital Corps, Muncie, IN
MAY 2022 - MAY 2024

Organized projects, delegated tasks, drafted meeting agendas, and mapped out timelines for teams of 10-15 members alongside project managers.

Recorded meeting notes for over 30 meetings and **led project meetings** when required.

Software Engineer Intern
MakeMyMove, Indianapolis, IN
MAY 2023 - AUGUST 2023

Collaborated with Designers and other Software Engineers to contribute to the upkeep and updating of MakeMyMove products with **React.js**, **Next.js, JavaScript**, and **CSS**.

Engaged in weekly **Scrum** meetings for two week sprints for an **Agile** environment.

Obtained through the TechPoint XTERN internship matching program.

Employed **Figma** software to create **User Flow** and **Prototype** for internal employee sites.

PROJECTS

Henry Gets Moving — *Senior Capstone Project*
SEPTEMBER 2022 - MAY 2023

Designed **100%** of the **high fidelity** designs for the web application utilizing **Figma**.

Styled 100% of the web application applying **SASS** and **React TS**.

Altered design and added features according to client feedback for each of the 4 iterations.

The Loading Zone National Distribution — *Digital Corps Project*
MAY 2022 - MAY 2024

Enabled the downloading of over 150 episodes to over 350 PBS stations.

Implemented **API calls** to retrieve and display a sliced list of over 180 personnel involved in the project since its inception.

Contributed to the application as a **Full Stack Developer**.
