EDUCATION

Ball State University   **Muncie, IN**
Bachelor of Science, Computer Science   *May 2024*
- Minor: Sociology
- GPA: 3.61/4.0

PROFESSIONAL EXPERIENCE

The Digital Corps   **Muncie, IN**
Development Master   *Aug 2023-May 2024*
- Appointed as one of three undergraduate leaders, improving collaboration and morale within the organization, resulting in enhanced team efficiency and project success.
- Worked directly with executive leadership, including board and 10 faculty members, to identify improvement areas.
- Presented information about the organization and events to new hires, our organization of over 60 people, and special clients, enhancing awareness and engagement.
- Organized projects by delegating tasks, drafting meeting agendas, and mapping out timelines for teams of 10-15 members, alongside project managers, leading to streamlined project execution.
- Managed complex React and WordPress projects while also contributing and mentoring three new developers.

Development Specialist   *Aug 2022-May 2023*
- Recognized expert in frontend styling with CSS and acknowledged as the fastest CSS developer on the team.
- Utilized GitHub to streamline Git Flow processes and enhance version control.

Development Apprentice   *Aug 2021- Aug 2022*
- Collaborated with Designers, User Experience Researchers, Content Writers, Video Producers, and Project Managers to create web applications and other digital products for clients or for internal usage.
- Contributed to the development of over 20 web applications using React, WordPress, TypeScript, SASS, and HTML.

MakeMyMove   **Indianapolis, IN**
Software Engineer Intern   *May 2023 - August 2023*
- Contributed to the maintenance and updates of MakeMyMove products using React.js, Next.js, JavaScript, and CSS, enhancing product functionality and user experience.
- Employed Figma software to create User Flow and Prototype for internal employee sites.

PROJECTS

Henry Gets Moving   *Sept 2022 - May 2023*
- Architect and designer for the web application utilizing Figma.
- Principal frontend developer for the web application applying SASS and React TS.
- Altered design and added features according to client feedback for each of the 4 iterations.

The Loading Zone National Distribution   *May 2022 - May 2024*
- Enabled the downloading of over 150 episodes to over 350 PBS stations.
- Implemented API calls to retrieve and display a sliced list of over 180 personnel involved in the project since its inception.
- Contributed to the application as a Full Stack Developer.
